

I Ibero-American Research Symposium: Opening frontiers through new materials

International Meeting of Young Researchers

“Sharing discoveries is as crucial as making them” Albert Einstein

UVasens group of the University of Valladolid organizes the I Ibero-American Research Symposium that will take place at “Casa del tratado de Tordesillas” (Valladolid, Spain), in November 7th, 2023.

The meeting will consist of oral presentations in the field of advanced materials and applications. Young researches in the field are invited to participate presenting their research sending their written contributions in Spanish or English. PhD students are especially welcome.

Inscriptions:

Registration is free and will be done by filling out the application form and sending it to the indicated email address. Deadline for confirmation of attendance and/or participation is October 16, 2023.

Don't miss the opportunity to come and learn about the research of your colleagues

Cheers: Coral Salvo Comino and María Luz Rodríguez Méndez
