

II Ibero-American Research Symposium: Opening frontiers through new materials

International Meeting of Young Researchers

“Science knows no country, because knowledge belongs to humanity”

-Louis Pasteur-

UVasens group from University of Valladolid presents:

II Ibero-American Research Symposium

Casa del tratado de Tordesillas (Valladolid, Spain), May 28th, 2025

Join us on a unique journey to explore the cutting-edge research developed by young scientists from the University of Valladolid in collaboration with Ibero-American institutions, advancing the frontiers of knowledge in the field of advanced materials — one of the pillars of 21st-century science

UVaSens

Cheers: Coral Salvo Comino and Clara Pérez González
